Coax-Powered™ Modulator

Digitally Controlled Audio, Video, and Gain
For Making Your Own TV Channels

The NetMedia RM70 is great for security surveillance, audio/video distribution and video monitoring. Coax-powered™ technology provides power to the modulator and a 12V DC device through one coax cable. View a camera, VCR, laserdisc, DVD or satellite receiver on a TV channel and distribute it to every TV in the home.

Features:

- World's First 100% Digital Modulator
PLL Locked Audio, Video, & Gain
Zero parts to drift
- Combines with existing TV channels
- UHF & Cable coverage
- Internally generated test pattern
- Memory retained during power outages
- Rugged aluminum enclosure
- Includes Power Injector & Power Supply
- 5 Year Limited Warranty

Specifications

Output Frequency Range:	Ch. 14-69 UHF Ch. 70-94 CATV Ch. 100-125 CATV
Modulation Method:	Digital Audio, Video Crystal Stabilized PLL
Output Level:	Selectable, 0 to +30dBmV
Video Output Connector:	F-connector, 75 Ohm
Video Input Connector:	RCA, 75 Ohm, 1 Vp-p
Audio Input Connector:	3.5mm Stereo Jack 75,000 Ohm, 1 Vp-p
Power Requirement:	12V DC, 100mA CL2, UL Approved Indoor Use Only
Size:	3.2" x 2.2" x 0.9"
Weight:	4.0 oz

10940 North Stallard Place, Tucson, Arizona 85737
